**ACKNOWLEDGMENT OF RESPONSE TO ELECTION OF SPECIES AND STATUS
OF THE CLAIMS**

1. Claims 1-13 are pending in this application. Applicant's remark with respect to election of species filed 11/28/01 is acknowledged, considered and entered. It is noted that Applicant has elected the species of SEQ ID NO:3 which is claimed in claim 4. Thus, there is no requirement for further election of species, however, the previous species election requirement has been modified as follows:

SUPPLEMENTAL RESTRICTION REQUIREMENT

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 1-9, drawn to peptides with pharmaceutically acceptable salts and a composition comprising said peptides, and to a method of treatment of cancer by administering said peptides thereof, classified in classes 514 and 530, subclasses 327+ and 15+, respectively.
 - II. Claims 10-13, drawn to a solid phase synthesis process for the preparation of a peptide, classified in class 530, subclass 334.

3. The inventions are distinct, each from the other because:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be

Art Unit: 1653

made by another and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed can be made and/or synthesized by a materially different process such as solution phase procedure or by fragment or segment condensation or combination of solid phase and solution phase techniques.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. A telephone call was made to Janet I. Cord on 12/20/01 to request an oral election to the above restriction requirement, but did not result in an election being made.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
